

POWDER TOUCH-UP PENS

Simple, efficient, economical,

Make your own touch-up paint pen in your own colour.

With our specially designed resin, transform your powder liquid paint.

Warning !

Although separate the upper part (black plastic) of the metal tube.

USE

- Choose the powder
- Fill up the cartridge with your powder
- Use the spatula to insert the powder into the pen
- Firmly close the lid
- Shake vigorously to mix up the solvent contained in the pen
- Leave on for about 15 minutes
- Your paint is ready to use, make sure you put the lid on securely after use
- Keep the pen in a dry place away from extreme heat or cold
